Student Membership	\$22 (must be enrolled in a full-time program of education or training)

Club Membership Dues and Definition of Family

This definition of family in this schedule is by no means an attempt to discriminate against the wide variety of families found in today’s society, but is simply a means of defining a family unit that offers families a reduction in membership fees while remaining fiscally responsible to members.

A family is defined as any combination of adults and children to a maximum of four (4) living in the same home.
